

8 Band Briefcase Jammer

Jammer JO3 can block phone frequencies up to 4G LTE, VHF-UHF radio frequencies and GPS Lojack frequencies.

Protect your privacy on the go with this **portable briefcase jammer**, hidden in a discreet briefcase.

Block cell phones, bugs or any other device transmitting on these frequencies.

Travel comfortably with our new **hidden briefcase jammer!**

What is this **briefcase jammer**'s purpose?

1. It jams all cell phone frequencies within a range of 10-40 meters;
2. It blocks and prevents bugs and microphones from transmitting on those frequencies;
3. It scrambles VHF / UHF 130-180MHz and 400-470MHz frequencies;
4. It inhibits LoJack frequencies (the frequencies dedicated to the GPS localization of cars).

USD 1.200,00

DEVICE DETAILS

European Frequencies:	130-180MHz: 3W 400-470MHz: 3W 920-965MHz: 3W 1800-1890MHz: 3W 2100-2170MHz: 3W WiFi 2400-2480MHz: 1,5W 4G LTE WiMAX2 Europe 2620-2690MHz: 1,0W 790-870MHz 4G LTE: 1,5W
American Frequencies:	850-895MHz: 3W 920-965MHz: 3W 1800-1990MHz: 3W 2100-2170MHz: 3W WiFi 2400-2480MHz: 1,5W 4G LTE USA iPhone (AT&T & Verizon) 700-800MHz: 2W 4G WiMAX USA Sprint 2500-2700MHz: 1,0W GPS: L1 1575.42Mhz: 1,5W
Frequency Options:	Car Lock Remote Control: 315MHz, 433MHz, 868MHz, GPS L2 L3 L4 L5, LoJack 173MHz, SAT satellite mobile phones 1520-1670MHz, 11.a WiFi 5,1-5,5GHz, 5,5-5,9GHz o 3,5-3,7GHz
	Each module of each band is independent.
Output Power:	19W
Jamming Range:	10-40 meters (depending on signal strength)
Antenna Interface:	210mm for high frequencies / 380mm for 130-180MHz
Battery:	2-3 hours, can be used while charging 12V/20AH
Power Adapter:	6A
Dimensions (LxWxD):	430*350*120 mm
Warranty:	1 year
