

8 Bands Briefcase GPS Jammer L1, L2, L3, L4, L5

JO3-GPS is a portable mobile phone frequencies jammer and GPS L1 , L2 , L3 , L4 and L5 tracking blocker, concealed in a discreet briefcase.

Handheld Jammers typically present three problems:

- 1 . Limited output power, as well as the range that the jammer can cover;
- 2 . Portability: is it really as hidden as possible? Can you really carry it everywhere, in a practical way?;
- 3 . Limitation on number of bands blocked.

Our **JAMMER JO3-GPS** finally overcomes all these issues! The output power is that of a table Jammer, yet it is as discreet and imperceptible as you can get! Last but not least, this [portable GPS jammer](#) jams the same range of bands of a normal desktop Jammer!

Unquestionably, this jammer is the best solution to protect your privacy on the move.

What is the real use of this car GPS jammer?

- 1 . Is anybody trying to locate you by means of a GPS tracker? Feel safe with our JO3-GPS Jammer, as it can block any GPS locator in the world;
- 2 . It stops mobile phones from sending a signal within the indicated range, making it great for meeting rooms or places where cell phone use is forbidden;
- 3 . It stops hidden microphones from transmitting on these frequencies, therefore completely disabling them.

USD 1.200,00

DEVICE DETAILS

European Frequencies:	GPS L1 1575.42 MHz±10MHz: 1.5W GPS L2 1227.60 MHz±10MHz: 1.5W GPS L3 1381.05 MHz±10MHz: 1.5W GPS L4 1379.913 MHz±10MHz: 1.5W GPS L5 1176.45 MHz±10MHz: 1.5W 920-965MHz: 3W (850-895MHz) 1800-1890MHz: 3W (1920-1990MHz) 2100-2170MHz: 3W
American Frequencies:	850-895MHz: 3W 920-965MHz: 3W 1800-1990MHz: 3W 2100-2170MHz: 3W WiFi 2400-2480MHz: 1,5W 4G LTE USA iPhone (AT&T & Verizon) 700-800MHz: 2W 4G WiMAX USA Sprint 2500-2700MHz: 1,0W GPS: L1 1575.42Mhz: 1,5W
Frequency Options:	Car Lock Remopte Control: 315MHz, 433MHz, 868MHz, GPS L2 L3 L4 L5, LoJack 173MHz, SAT satellite mobile phones 1520-1670MHz, 11.a WiFi 5,1-5,5GHz, 5,5-5,9GHz o 3,5-3,7GHz Each module of each band is independent.
Output Power:	16,5W
Jamming Range:	10-40 metres (depending on signal strength)
Antenna Interface:	210mm for high frequencies / 380mm for 130-180MHz
Battery:	2-3 hours, can be used while charging 12V/20AH
Power Adapter:	6A
Dimensions (LxWxD):	430*350*120 mm
Warranty:	1 year
