

Powerful Vehicle GSM Jammer

B71 is a Bomb jammer designed specifically for mobile phone signals and VHF UHF radio frequencies, equipped with 3 additional channels, reserved exclusively for 315-433-868MHz,

This choice, as well as the need to insist on VHF UHF radio frequencies, is due to the fact that the latter frequencies are used to triggering bombs. That's why it's thought it best to add 3 more channels, such as 315-433-868MHz. In addition to radio frequencies, B71 blocks mobile phone signals, up to 3G frequencies, as well.

Therefore B71 prevents also potential terrorists from communicating with each other, using the above-stated frequencies.

DEVICE DETAILS

| | |
|-------------------------------|---|
| Product Code: | B71 |
| European Frequencies: | GSM 920-965MHz: 100W GSM DUAL BAND 920-965MHz: 100W DCS 1800-1880MHz: 100W 3G 2100-2170MHz: 100W VHF 130-180MHz: 200W UHF 420-480MHz: 200W 868: 100W 315: 100W |
| Output Power: | 1000W |
| Jamming Range: | 100-500 metres |
| Remote Control: | No |
| Power Adapter: | (AC220V-DC27V or 24V/ 60-70 Amp) |
| Color: | Black |
| Dimensions (LxWxD): | 860mm(L)x620mm(W)x690mm(H) |
| Operating Temperature: | -20°C ~ +60°C |
| Humidity: | 5% ~ 90% |
| Warranty: | 1 year |
