

[VIDEO] Raptor 8 bands Portable 3G 4G Cell Phone Jammer, GPS, Lojack & WiFi Blocker

What is **RAPTOR**? Raptor is our new entry. It's an amazing 2G, 3G, 4G Cell Phone Jammer. This is your first encounter in your entire life. But it can also block GPS L1, Lojack & 2.4GHz WiFi.

All of those frequencies in one pocket-sized device that you can carry anywhere unnoticed. How amazing!

So, what kind of devices can I block with this jammer? It can disrupt any mobile and cellular phone's signals of the above-stated frequencies.

It can easily block GPS satellite signal reception in a vehicle, as well as that of 160MHz-175MHz Lojack, as well. Most drone remote controls, spy cameras and microphones (just to mention a few) operate at those frequencies, so those devices won't function as they should.

*Why choose Jammer **Raptor**?*

Simply because it's the best jamming device you can find on the market, right now. It comes with an impressive operating time) and an impressive cooling system which keeps the device constantly under 40°, therefore. **Below, you can find the video illustration of our exclusive 8 bands jammer Raptor!**

USD 550,00

DEVICE DETAILS

Product Code:	Raptor
Frequency:	Freq. 1: Lojack: 173MHz Freq. 2: GSM: 920-965MHz Freq. 3: DCS: 1800-1880MHz Freq. 4: 3G, UMTS: 2110-2170MHz Freq. 5: 4G Low: 790-880MHz Freq. 6: GPS L1: 1575.42MHz ± 10MHz Freq. 7: WiFi 11.b & g: 2300-2500MHz Freq. 8: 4G High: 2620-2690MHz
Output Power:	8W
Jamming Range:	Up to 30 meters (Depending on signal strength in the area)
Remote Control:	No
Battery:	7.4V / 8.000mAH (Battery charged in 6 hours) - (Operating time 3 hours)
Power Adapter:	AC100-240V-DC12V
Color:	Grey & Black
Dimensions (LxWxD):	145 x 80 x 41mm
Warranty:	1 Year
