

GSM, 2G, 3G, 4G, WiFi 2.4GHz, GPS & Lojack Jammer 20-40 Meters

The B68L jammer is a desktop jammer for mobile phones up to 4G. Furthermore, it is able to kill 2.4GHz WiFi frequencies, GPS L1 and Lojack.

Ideally designed to shield meeting rooms or conference rooms, cell phones and bugs using the above-mentioned frequencies will be rendered useless. The B68L can be defined as the more popular variation of the B68C and B68H models, as it includes the most used localization and espionage frequencies. It is equipped with output power adjusting knobs at the base of each antenna.

Used alongside its twin [B68H](#), these two jammers offer a complete jamming experience by disrupting all mobile frequencies up to 4G, 2.4GHz WiFi and 5.1-5.8GHz.

USD 650,00

## DEVICE DETAILS

<b>Frequency:</b>	Freq. 1: GSM 920~965MHz Freq. 2: 2G 1800~1890 Freq. 3: 3G 2110~2170MHz Freq. 4: WiFi 2400-2484MHz Freq. 5: 4G Low 800 790-880MHz Freq. 6: 4G High 2620-2690MHz Freq. 7: GPS L1 1575.42MHz Freq. 8: Lojack 164MHz 164-174MHz
<b>Output Power:</b>	19W
<b>Jamming Range:</b>	20-40 (Depending on signal strength)
<b>Antenna Interface:</b>	Omnidirectional 380mm
<b>Remote Control:</b>	No
<b>Power Supply:</b>	AC 110-240V or DC 12V car charger
<b>Color:</b>	Black
<b>Dimensions (LxWxD):</b>	360 x 140 x 51 mm
<b>Warranty:</b>	1 Year
