

[VIDEO] Configurable 4 Band Portable Jammer

Phoenix is **the most powerful 4-band portable Jammer** in our catalog and is an exclusive device of our own making. Phoenix, entirely customizable, (it will be up to the customer to choose the four frequencies to be implemented on the device) is able to disrupt the following frequencies:

- Cellular frequencies (GSM, 2G, 3G, 4G, 4G LTE) within a range of 20-50 meters;
- Wi-Fi / Bluetooth frequencies (2.4GHz & 5GHz) within a range of 50-60 meters;
- GPS frequencies (L1, L2, L3, L4, L5) within a range of 100-200 meters;

The build quality ensures seamless performance and the **output power of the 4 bands jammer Phoenix is astounding**, especially when compared to that of other portable jammers. To give you a sense of perspective, just think that a single channel of the Phoenix has a wattage equal to the overall wattage of the [PRO10](#) (10 bands - 10 Watt) and even higher than that of the [Raptor](#) (8 bands - 8 Watt).

Configured with **4 bands of your choice**, the output power, disarming, can even reach 38 watts allowing Phoenix to block cell frequencies within a range dozens of meters (20-50 meters), and other frequencies such as GPS, Wi-Fi, etc. within 50-200 meters.

The following configuration is recommended on two devices for jamming cellular signals, WiFi, GPS L1 & LoJack:

Jammer Phoenix #1:

- GSM
- 2G
- 3G
- GPS L1

Jammer Phoenix #2:

- 4G Low
- 4G High
- 2.4GHz Wi-Fi
- LoJack

Please use the "NOTE" section at checkout or the form below to request a special configuration of the Phoenix.

USD 900,00

DEVICE DETAILS

Product Code:	Phoenix
Frequency:	Freq. 1: 920-965MHz: 10W GSM900 Freq. 2: 1800-1920MHz: 10W DCS Freq. 3: 2100-2170MHz: 10W 3G,UMTS Freq. 4: WiFi 2400-2500MHz: 8W WiFi 11.b & g Freq. 5: 825-830MHz: 10W 4GLTE Freq. 6: 2570-2690MHz: 8W 4G High Freq. 7: 1575.42-1620MHz: 10W GPS L1 + Glonass L1 Freq. 8: 5.1-5.9GHz: 2W WiFi 11.a Freq. 9: LoJack 164MHz/173MHz: 5W Freq. 10: GPS L2 + Glonass L2: 8W Freq. 11: GPS L3 + L4: 8W Freq. 12: GPS L5: 8W
Output Power:	30-38 W total (Depending on the requested configuration)
Jamming Range:	20-50 meters (Depending on signal strength)
Antenna Interface:	Omnidirectional -75dBm@
Remote Control:	No
Power Supply:	AC100-240V or 12V Car charger
Battery:	40-60 minutes or uninterrupted use when plugged into socket
Color:	Silver & Black
Dimensions (LxWxD):	145 x 95 x 45mm
Warranty:	1 Year
