

## Portable Car Jammer (30W)

Maddox is, undoubtedly, **the most powerful portable car jammer** ever designed to kill remote control frequencies, such as 315MHz, 433MHz, 434MHz, and 868MHz.

*What is the main difference compared to its predecessor B100?*

Although the [B100](#) lacks nothing in terms of performance and quality, Maddox represents a further step forward in terms of output power (5W channel for the frequencies 315MHz and 433MHz, 10W for the frequency 868MHz) and jamming radius.

Its unique power is confirmed even more if we consider that it is a "minimal" portable jammer.

In fact, the jamming distance of this **315MHz, 433MHz, 434MHz and 868MHz car jammer** is unprecedented and allows you to easily reach 50-150 meters, which is "outrageous" for such a small handheld device if you really think about it.

Its omnidirectional high gain antennas play a fundamental role in this sense as well since they allow the jammer to cover the aforementioned jamming range.

We can, without a doubt, state that Maddox is "the upgrade" that every one of our clients was waiting for.

Below you will find all the technical data of the device. In case you have questions and/or doubts, do not hesitate to contact us by filling out the form below.

## DEVICE DETAILS

<b>Product Code:</b>	Maddox
<b>Frequency:</b>	Freq. 1: 315MHz: 5W Freq. 2: 433MHz: 5W Freq. 3: 868MHz: 10W Freq. 4: 868MHz: 10W
<b>Frequency Options:</b>	Wi-Fi/Bluetooth 2.4GHz: 8W; 1575.42-1620MHz: 10W GPS L1 + Glonass L1
<b>Working Object:</b>	Car remote controls, garage and gate remote controls, commercial drones, radio controlled toys, etc.
<b>Output Power:</b>	30W
<b>Jamming Range:</b>	50-150 m
<b>Antenna Interface:</b>	Omnidirectional
<b>Remote Control:</b>	No
<b>Power Supply:</b>	AC100 - 240V
<b>Battery:</b>	Battery fully charged in 5 hours - battery life 40-60 minutes (uninterrupted use when plugged into wall socket or car cigarette)
<b>Color:</b>	Silver
<b>Dimensions (LxWxD):</b>	145 x 95 x 45mm
<b>Warranty:</b>	1 Year
