

High-end Powerful Desktop Jammer 76W (30-60 meters)

B88 is our brand new powerful 8 bands desktop jammer capable of blocking all cell phone frequencies. However, bear in mind that it can be customized as per your needs by choosing 8 frequencies among are very flexible and interchangeable so as to better suit our clients' needs.

What is the peculiarity of this desktop jammer?

Unlike the [B60](#) & [B68](#) series, the B88 can be employed to secure a larger area, ranging from 30 to 60- unwanted and illegal eavesdropping that depend on cell phone & Internet connection. It is able to block LoJack as well.

Furthermore, it will immediately disable Internet access via 3G, 4G, 4G LTE, and WiFi. Nobody will be able to receive messages that might compromise the integrity of a private conversation. All Internet access will be denied.

Although it is classified as a desktop jammer due to its size, it can also be installed in medium and large vehicles using a power adapter which allows a seamless operation.

Where can it be installed?
