

Brief Introduction

This 6 band desktop jammer blocks GSM, 2G, 3G, 4G mobile phones, 2.4GHz WIFI Bluetooth. The jamming range is up to 50~150m.

With powerful cooling fans and aluminum case, it works 24/7 on wall charger. The individual switches on the panel allow you to adjust the output power of each band separately.

Package includes:

- 1 x 6 Band Desktop Jammer
- 1 x AC Power Adaptor
- 1 x Charge Cable

Quick Start

1) Install Antennas

Screw on the antennas tight, one by one by turns.
If it lays on the floor, it is advised to put it up straight.

2) Connect to Wall Power Source

Connect the charge cable to power adaptor and the jammer. Plug in wall power socket. Then turn on the power switch and adjust the power regulation buttons. It starts to work.

- **Warning: Please use the original power adapter.**
- **Please keep the power adapter far away from the jammer.**

3. Adjust the power regulation button and test

Try to make a phone call (2G 3G mobile) and send a SMS;
Put it besides Bluetooth mouse/headset/keyboard;

(**Note: please make sure you switch power supply to your voltage 110 or 220V*****)**

Make Sure.....*
Your Voltage is for
your Country
110 or 220V

- The machine running into normal operation:
the three fans on the jammer start to work, making some noise. The jamming system enters into normal working status.
- Adjust the output power each band
- Once you stop the jammer, switch it off, and then the device will stop working.

Adjustable Output Power each Band
VSWR over protection for each
modular

Output Power Switch
From 0 (OFF) to Max

FAQ

Q: Which version should I choose, European or American version?

A: Please check your cell phone frequency bands firstly for your country.
<http://www.worldtimezone.com/gsm.html>
Then check the frequency bands of the jammer and choose the version that fits you.

Q: What to do if I do not want to jam some bands?

A: Here are two ways. Please turn down the output power (through the knobs on the panel) or screw off certain antennas.

Q: Why does some band not work?

A: Make sure to install the antennas by orders and adjust the power regulation knob/button.

Q: It blocks mobile signals in short range.

A: Please adjust the angle of antenna. If there is mobile signal booster or Mobile signal tower, the jamming range will be reduced.

Q: Will the blocking range rise if I turn off other bands?

A: It will not increase its range. Because the output power of each band is fixed.

Warranty & Returning Policy

The warranty is **one year**. Since you purchased from us, you will enjoy one year warranty.

Once you get your package, please check if the outer packing is original or in good condition. Then install and use it according to above instructions.

If it does not work properly, please contact our sales team.
If you want to return for repair, please contact our sales team.

Warranty will be invalid under below conditions:

- It has more than 12 months since you ordered.
- Open the case or change circuits without our formal authorization.
- Other kinds of problems caused by wrong operations including using wrong power source.

Caution

The Jammer shall be used legally, according to local laws. The user will be fully responsible for any illegal use or any infringement of any rights.
